Salisbury Township Tuscan Kitchen

A Tuscan flavor was the goal for this client, working with SCC they arrived at the right design and selections to achieve a rich, classic Tuscan look for their kitchen.

Following the removal of the existing countertops, backsplash and appliances we made modifications to the cabinets to allow the installation of a wine cooler and flat panel TV as well as new appliances.

Shivikashi granite countertops were installed with a Kohler undermount sink and aged bronze faucet.

Noche tumbled Turkish granite tile backsplash was installed, to further accent the area of the Miele cooktop. I installed an aged bronze metal tile accent with tumbled marble on an offset pattern filling the center.

The finished product was more open, warm and inviting space for cooking and entertaining that truly enhances the home.
